

The Ridge Preschool and Daycare ~ a Testimonial

I am a mother and grandmother of two very young children and would highly recommend The Ridge Preschool and Daycare for my family, friends, and any parent looking for a safe, fun and supportive environment.

The Ridge is where children are allowed to be children. What I mean by this is that Tanya allows children to experience long periods of uninterrupted play that is so important for healthy growth and development. She carefully observes children's interests and builds upon them by reading, singing, and exploring. She will also research topics with the children, too!

Tanya understands child growth and development. She demonstrates a commitment to preparing the children in her care for school readiness, beginning at birth, by providing a safe and nurturing environment while sticking to routines and rituals. She encourages children to engage in activities that support the growth and development of self-help skills (like dressing and washing hands), small and large muscle development, literacy, numeracy, and social connections. All of these skills are critical for success in later years.

The thing I appreciate most is seeing Tanya work with children while keeping her sense of humor and sense of wonder alive, which is contagious! She takes the children on the daily walks or hikes, trips to the park, getting messy with mud or art exploration activities and so much more.

If you choose The Ridge Preschool and Daycare for your child, you will have the peace of mind that your children are playing and learning in a warm, supportive, home based environment.

Your children will have so much fun; they will not want to leave!
